

Sinclair Broadcasting's has recently made a decision to force their stations to run an anti-Kerry documentary a few days before the presidential election. This is a clear example of large corporate media monopolizing the public airways and using their financial clout to serve their own interests.

The public airways belong to the public and it is important that we see real people from our own communities and more substantive news about issues that matter.

We need to strengthen media ownership rules, not weaken them. Sinclair's actions show why this is so important. To weaken ownership rules and to allow Sinclair to go through with this broadcast threatens the very democratic process America was founded on. Thank you.
